BULLETIN OF THE MONTH

Keep Your Tile Drains Working Leaflet 347

What to do when tile drains fail, as a result of silting, washouts, small animals or tree roots, is outlined.

FARMERS' BULLETINS

The corn earworm as an enemy of field corn in the Eastern States. R. A. Blanchard and W. A. Douglas. Bureau of Entomology and Plant Quarantine. 15 p., illus. (F 1651, rev.)

The corn earworm is the most destructive insect enemy of ear corn in the United States. Control measures are given in this revision.

Strip cropping for conservation and production. Harold E. Tower and Harry H. Gardner. Soil Conservation Service. 46 p., illus. (F 1981, rev.)

This revised bulletin describes the different types and uses of strip cropping and tells the farmer how to adapt strip cropping to his farm.

LEAFLETS

Keep your tile drains working. Paul Jacobson. Soil Conservation Service. 8 p., illus. (L 347.) See above.

An improved method of making plant containers. Fred W. Herbert and Oswald K. Hoglund. Soil Conservation Service. 8 p., illus. (L 349.)

A practical and inexpensive method for making plant containers for propagation work is described in this new leaflet.

AGRICULTURE HANDBOOKS

Grasses introduced into the United States. (An annotated list with bibliography). Frances C. Weintraub. Forest Service. 79 p. (AH 58.) Price 25¢. **FOR SALE ONLY.**¹

This publication attempts to list, in many cases with notes on origin, distribution, characteristics, and usage, all the species of introduced grasses of economic value as well as those now believed promising.

AGRICULTURE INFORMATION BULLETINS

Price programs of the United States Department of Agriculture. Harry W. Henderson. Commodity Stabilization Service. 94 p. (AB 13, rev.)

This bulletin, extensively revised to meet an insistent current demand for up-to-date information, describes price programs as they were being carried on in December 1953.

* Compiled by Eleanor W. Clay, Office of Information.

MOTION PICTURES

The Motion Picture Service, Office of Information, U. S. Department of Agriculture, produces and distributes motion pictures on subjects with which the Department is concerned. They are both sound and silent and are released in 16-mm. and 35-mm. widths. Films in the 16-mm. size are available from State film libraries; 35-mm. films are available only from Motion Picture Service. They are lent for educational purposes to groups and organizations or may be purchased outright. Prints of Department films may be obtained from 73 cooperating film libraries in the 48 States, and the Territories of Alaska, Hawaii, and Puerto Rico.

GYPSY MOTH. 16 mm., sound, in color. Running time, 28 minutes. Released 1953.

Since 1869, when a few gypsy moths escaped from a Massachusetts scientist who was attempting to breed them with silk worms, this foreign insect has threatened the forested regions of North America. The story told by this film is how Federal-State activity has limited this foliage-feeding pest to New England and eastern New York and is slowly but surely reducing its area of infestation. (Not in film libraries; available for loan from Gypsy Moth Control Project Hdq., P. O. Box 72, Greenfield, Massachusetts and for purchase from United World Films, Inc., 1445 Park Avenue, New York 29, N. Y., for approximately \$200.00). (Television use permitted.)
